

# Circulate

*For Brewers*

**sisbrew.com**

## DESCRIPTION

**Circulate** is a highly concentrated, free rinsing alkaline cleaner that aggressively attacks organic soils. A low foaming product that is ideal for use in CIP systems. Contains active ingredients to avoid the precipitation of mineral deposits in tanks to aid in the prevention of beerstone.

## DIRECTIONS

**RECOMMENDED USE:** Use ½ - 10 ounces per gallon of water, depending on soil load. Water temperature should be 140°F - 190°F. Circulate solution through equipment for 20 - 30 minutes. Drain solution and rinse equipment with clean water. Can also be used with an oxidizing additive (such as Oxygen Boost) for added effectiveness.

## APPLICATIONS

**Removes organic residue from:**

- > Circulation / Clean In Place / Clean Out of Place systems
- > Brewery, beverage and food systems
- > Food contact surfaces

## SPECIFICATIONS

Color..... **Dark Brown**  
Fragrance ..... **Characteristic**  
pH Range..... **> 12.5**  
Dilution ..... **0.5 - 10 oz. / gal.**  
Density..... **11.60**

## PACKAGING

5 gallon ..... **BPCC10-05**  
15 gallon..... **BPCC10-15**  
55 gallon ..... **BPCC10-55**  
275 gallon ..... **BPCC10-27**
