

OUR WORLD IS YOURS.

PRODUCT SPEC:

IOB EXTRACT 0.7MM DRY BASIS	284 MIN
COLOR (ASBC)	12 - 18
MOISTURE	7.5% MAX

SWEET, NUTTY, BISCUIT-LIKE TASTE WITH TOFFEE AROMA.

We produce this malt at our Pauls Malt Ltd. plant in Knapton, North Yorkshire, UK. Cara malt is produced in much the same way as crystal but the final roast stage is extended and carried out at lower temperatures to meet the requirements for lower color, higher extract and higher moisture.

TYPICAL PROFILE

12 - 18 ASBC. Provides caramel sweet flavors to beer, as well as additional body and mouth feel. No enzymatic potential.

TYPICAL BEER STYLES

- ALES
- PALE ALES
- IPA
- AMERICAN-STYLE PALE ALE

TYPICAL USAGE RATES

10-15% addition to mash tun with base malts.
